it actually get into a state of tea intoxication, and it produces a form of nerve disturbance which is most painful to witness. If you want to have either for yourselves or for your patients, tea which will not injure and which will refresh, get black China tea, putting in the right measure, the old-fashioned one spoonful for each person, and one for the boiling water. The new, so-called black teas, and within five minutes you must pour it off again, or it will become wicked instead of good.

Orum seems to be taking the place of tea in the Fokien province. The *Poochow Echo* says:—Two tea-growers are, we understand, planting poppies in the place of tea in the lower part of their tea plantations. If they meet with success, others will follow their example, and give up tea altogether. The Imperial Government with its heavy export duty and the local government with their illicit and other taxes, have, between them, effectively killed the once flourishing tea trade of this province.

The Melbourne Cup, decided at the Victoria Racing Club Spring Meeting, has been won by Mr. J. Redfern's *Mohoro*, by *Malua-Madcap*, Mr. R. Kay's *Sir William* being second, and Mr. W. B. Wilson's *Strathmore* third. The race, the richest handicap in the world, was won last year by *Carbine*, a son of *Musket*. The winner, according to the market quotations given in the colonial papers to land by the last mail, was then quoted at 100 to 3 (offered). The second stood at 100 to 3 (offered), and the third was not mentioned. For the Cup there were 163 subscribers of 50 sows each, with 10,000 sows and a trophy value 100 sows added, the total value of the race was therefore over £18,000. The second received 2,000 sows, and the third 1,000 sows.—*Strait Times*.

Former DUTIES SOLDIER IN AFRICA. The following letter from the *China Mail* to the 10th moon of last year in which he reported that he had four battalions of infantry numbering 2,000 men, stationed in the province of Thibet who were being drilled on the German system. Of these 1,000 were at that time far enough advanced to be entitled to a slight increase of pay and sanction was obtained for a similar addition to the pay of the second battalion as soon as they should have become more perfect in their drill. Memorialist has now inspected them and finds that they have made the greatest progress under the tuition of Colonel Hui Shih-tung, so that he has been confident in stating that the increase of five pence proposed for the second battalion is fully deserved. Memorialist has given orders that a thousand infantry soldiers stationed at Ningkuo Fu and six hundred being distributed throughout the forts on the Yangtze be all drilled on the German system. The second battalion has been advanced in their drill it is proposed to make a similar addition to their pay in order to induce them to exert themselves to the utmost.

CHINESE STRAMER FLYING TO NON-TREATY PORTS.—The Governor of Shanghai forwards a short report published in the *Peking Gazette* which has been submitted to him Shing Hsiao-hai, the Customs Tsoan at Chefoo, on the subject of a Chinese steamer, the *China Merchants' Co.* proposed running a small steamer for the conveyance of cargo between Chefoo and Lai-chow Fu, and having petitioned the Tsoan Yamen, through H.E. the Superintendent of Northern China, for the necessary permission to embark in the project. The steamer was to receive her papers from the native Customs, and was to be a native vessel to pay duties to that department in accordance with the scale prescribed by the inland tariff. The undertaking was started on the 30th of May, 1889, and between that date and the 31st of August, 1890, the duties paid on cargo carried by the *Kuan-shan* at the ports of Chefoo, Lai-chow Fu, and others, amounted to £19,935. The expense of collection, which was defrayed by an extra levy of 10 per cent. on the amount of duty paid, amounted to £98.24. It is proposed that this item of duty should be kept separate from the ordinary collection of the native Customs, and that it should be included in the annual returns forwarded to the Board. The accounts of the native Customs having, however, already been made up complete for the period in question, the above sum will be carried forward and credited in next year's account.

The *Poochow Echo* says:—It is now some months ago that our attention was called to a new industry that was springing up here, and although we have been watching its progress from time to time since, we are quite surprised, at this date, to learn of the rapid strides it has been making. It is the manufacture of a cloth closely resembling grey shirting. The machine used is a simple in its working that in three or four days an ordinary hand acquires a perfect knowledge of it. It is constructed entirely of wood and costs \$5 complete. The cloth when finished is 16 inches in breadth and 22½ in length. The natives prefer it to grey shirting, not only on account of its cheapness, (40¢ cash a piece), but because it is more durable. The demand is so great for this new article, that the manufacturers have difficulty in keeping pace with the demand. Some of the best are employed, and the work comes as a great boon to many who were almost destitute through the decay of the tea trade, by which they previously made their living. Women are engaged for the work as well as men. The machine used is so simple that any one can be taught to use it, and the matter of the machines lets them out on the hire system to those who are too poor to purchase them at once. It is said that, already, as many as ten thousand of these machines are now used all over the country, the hands, in most cases, working at their own homes. So far, no kind of illicit or other tax has been imposed on this article, but if the production goes on increasing at the rate it has done lately, we can easily see how long it will enjoy its present immunity from a squeeze of some sort.

The Viceroy at Canton submits a statement (published in the *Peking Gazette*) of the expenditure incurred from the beginning of the month to the end of the 14th year of Kuang Hui in erecting forts throughout his jurisdiction. Some years ago the General Government called for detailed statements of the expenditure incurred in the construction of the forts, and the Viceroy submitted a statement showing the expenditure for each year. The statement shows that the expenditure for the construction of the forts was as follows:—
